

How to use PDF Reader Pro to fill a form and return it by e-mail

1. When you try to open a PDF file from your device, you will be asked which application you want to use. Select PDF Reader Pro. The file will be saved in a folder called Inbox. Keeping the file in this folder forbids you from modifying it. You must move the file into another folder.

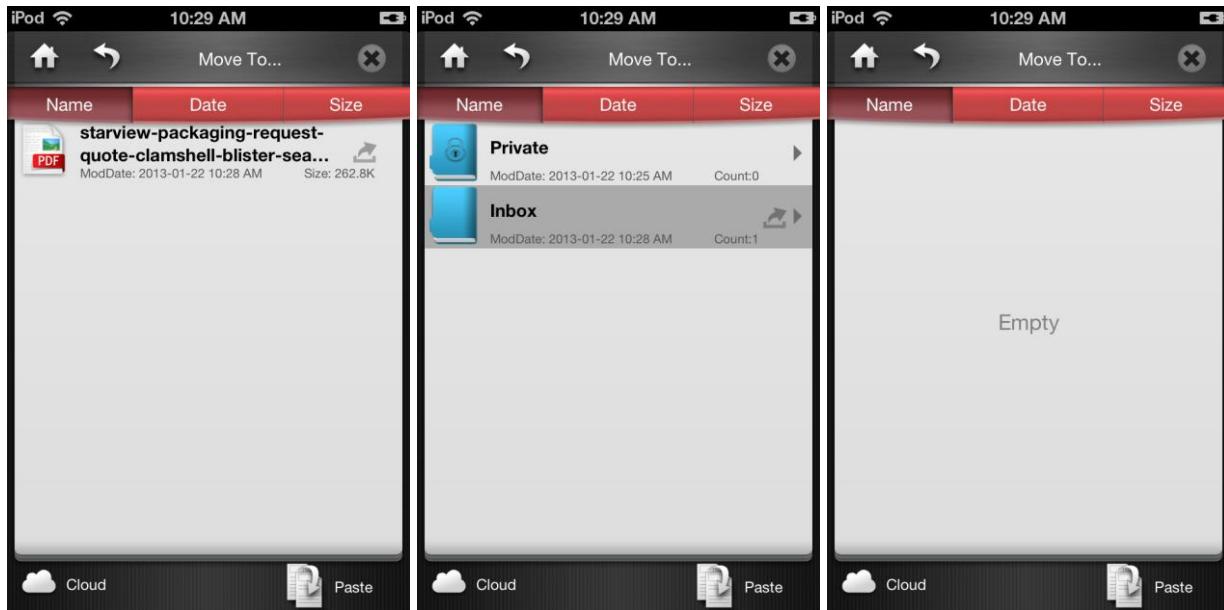

2. Open PDF Reader Pro and go into Inbox. There, you will find the PDF file you just saved. Press on the crayon icon in the top right corner and options will appear at the bottom. Select the file and in the menu, select either the options copy or move.

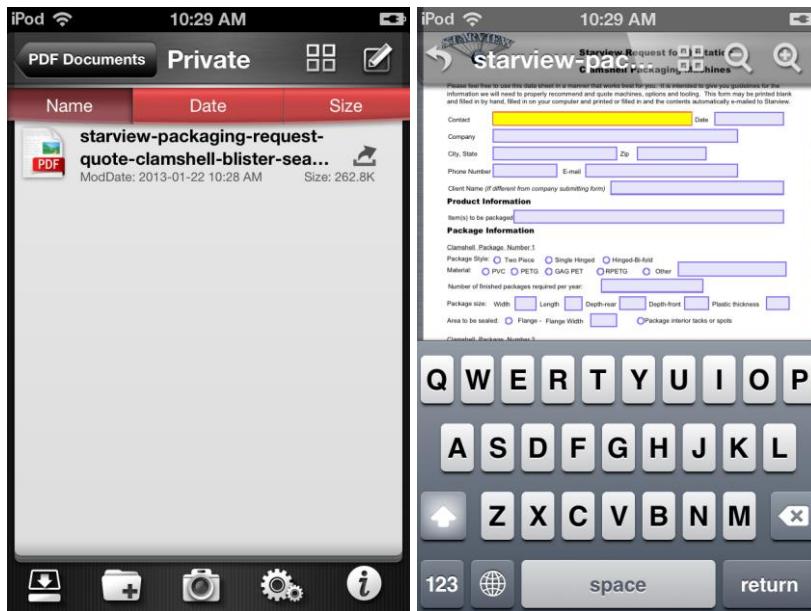

User Guide – Fill up a form and submit it by e-mail

3. Press on the home icon at the top left corner to go back to your folders. Select the folder named Private and once it's opened, press on paste or copy at the bottom right corner.

4. You can now open this PDF document and fill it up.

User Guide – Fill up a form and submit it by e-mail

- Once you're done, press on the icon representing an arrow coming out of a box in order to submit your form by e-mail or to print it.
